Click on the Text Box

Click on the text boxes on the strap of each thong. A text box will appear allowing you to change the message.

1. Choose your font by pressing the Back Arrow key at the top of the text box. The drop down menu will give you the fonts available

2. We recommend capital letters and no more than 8 characters, otherwise the lettering becomes too small.

Upside down, maybe

3. The default orientation for the lettering is so that it can be read from on top. If you wish to change the orientation, spin the lettering on the thongs
